Device Enrolment into Intune required for ALL devices in 2026

Intune is required and will need your student's email and password which will be provided in term 4, 2025.

Enrolling your child's device into Intune, will mean your child will be able to:

- access the school Wi-Fi network and have school email automatically set up and configured
- access the school's learning applications and websites.

Intune download instructions will be provided and are available on the school website.

In 2026 Year 4 will have the choice of continuing with their Year 3 iPad or bringing a Windows 11 Device. In 2027 Year 4 Semester 1 will be dual platform and Semester 2 will be Windows only. *We encourage Year 4 parents to transition to a laptop.*

Protective Case

iPads and tablets must have a protective case *at all times*. All other devices require a protective case when not in use. All devices must also be encased in a **sleeve** when not in use, and clearly identified (e.g. engrave/etched for security or labelled) with the student name (on device itself AND case/s).

Mac Books are not supported. **Please do not purchase a Mac**, even if it runs Windows 11.
