### **Microsoft Store Apps List**

The apps list provided by the end of the school year will be mandatory to involvement in the iLearn Program. It is suggested that parents arrange payment for the purchase of apps throughout the year. Additional to this, parents should create the initial account on the device and then create a “Family Filtered” account for their child. That way the internet and programs are restricted as far as content being available.

### **Protective Case**

iPads and tablets must have a protective case *at all times*. All other devices require a protective case when not in use. All devices must also be encased in a sleeve when not in use, and clearly identified (e.g. engrave/etched for security or labelled) with the student name (on device itself AND case/s).
